

Air1 serves my community with positive music which many enjoy. It is clean, uplifting, good music compared to the other options for music here. If Air1 was not available, I would be very upset and would petition to have it put back on the air. Our community would be at a disadvantage for positive community efforts due to programs which help others. If they were displaced by an LPFM broadcaster who would provide other programming, the listeners would be forced to listen to demoralizing, satanic, trashy music which focuses on sex, killing, poor moral behavior and bad choice making, glamorizing sex and drug use, violence against women, divorce as acceptable. The service that Air1 provides is good, moral, honest, relevant to the world's issues, community efforts and world wide compassion for others, ultimately great programming for all people. KEEP AIR1 ON THE AIR!!!
